B.Tech
Lovely Professional University

08/2017 - 07/2021   *Punjab*

CGPA
- 6.43

XIIth
St. Josephs High School

04/2014 - 04/2016   *Patna*

Percentage
- 68.8

WORK EXPERIENCE

Salesforce Developer
Trantor Software

10/2021 - Present   *Chandigarh, India*

Software Engineering Intern
HashedIn By Deloitte

04/2021 - 06/2021   *Bangalore, India*

Achievements/Tasks
- Learned new technologies like Angular, Java, Spring Boot. I got to work on two different projects - First one was Online Learning Marketplace which was implemented using Angular and the pre-built APIs were provided. Second project was an online web based Split Pay application, it was also implemented using Angular and the REST APIs were created using Spring Boot.

Data Analyst Intern
Widhya

10/2020 - 11/2020   *Bangalore, India*

Widhya is an e-learning platform where you gain industrial exposure, and in the process, you learn.

Achievements/Tasks
- Target was to analyze the ongoing IPL matches based on different parameters and submit our analysis to gain points.

SKILLS

Java Apex CRM Salesforce Git Angular REST API HTML5 Spring Boot CSS TypeScript JavaScript C++ MySQL VS Code IntelliJ

PERSONAL PROJECTS

Split Pay (05/2021 - 06/2021)
- An attempt to create a web application to help splitting the bills between a group of friends. Using Angular for the frontend and Springboot for creating the endpoints and handling the user requests.

Online Learning Portal (04/2021 - 05/2021)
- An attempt to create an online learning portal where users can purchase and wishlist their courses using Angular with Pre-Built APIs.

Personal Portfolio (12/2020 - 01/2021)
- Created an online portfolio using HTML, CSS and deployed using GitHub pages.
- **https://harshit6966.github.io/portfolio/**

Visualization (Excel) (10/2019 - 11/2019)
- Analyzed a supermarket data set taken from Kaggle to understand the sales patterns all over the regions. Also created an interactive dashboard.

Scholarship Management System (C++) (01/2018 - 03/2018)
- Created a C++ application to calculate the scholarship amount based on the selected option by the user.

Travel Management System (03/2017 - 05/2017)
- Created a travel management system using HTML, CSS and Bootstrap as a part of the final assignment.
